UNIT 2
LONDON BRENTWOOD
COMMERCIAL PARK

129,910 sq ft industrial / distribution unit

CM13 3LS | M25 J29 | londonbrentwoodcp.com

SPACE FOR OPPORTUNITY

Fronting the junction of the A128/A127 at East Horndon, London Brentwood Commercial Park offers highly accessible industrial and logistics space just three miles from the M25.

With the first two development phases now complete, customers can benefit from a high quality commercial park environment with excellent transport links and a large local labour force.

Key benefits:

-  6.7MVA available
-  Fast access to Junction 29 of the M25
-  23.5 million consumers in a two-hour HGV drivetime*

SETTING A BENCHMARK FOR ESG

Our market-leading specification is designed to reduce energy use and lower carbon emissions, and includes some of the following features:

-  Carbon neutral cladding envelope
-  Full rooftop solar PV system
-  Air tightness far in excess of current building regulations
-  12% roof lights providing optimum natural light
-  Carbon neutral carpet tiles
-  Ceiling tiles with a high percentage of recycled content
-  Solar wall thermal heating
-  Solar thermal hot water
-  LED lighting to offices and external areas
-  Smart metering
-  Electric car charging points
-  Infrastructure for future electric vehicle fleets
-  Rainwater harvesting and water saving devices

INVESTING IN RENEWABLES

We are increasing our investment in on-site renewables as we work with our customers to deliver smart energy solutions.

With automation and increasing use of technology placing greater demands on energy usage, incorporating a 1,000kWp solar PV system provides an opportunity to benefit from low cost clean energy that can meet your operational needs.

-  Realise significant energy cost savings over your property's lease term
-  Reduce your operational carbon footprint
-  Achieve greater cost certainty, minimising your exposure to grid energy price inflation
-  Purchase your energy at a discount to market pricing
-  Meet your corporate sustainability objectives, including ESG targets.

How does it work?

As building owner, Goodman funds, installs and operates the solar PV installation.

Goodman is responsible for the ongoing operation and maintenance of the proposed system over the lifetime of the lease. Ongoing system monitoring will also be provided, giving customers full visibility of data and access to real-time performance information.

LOCATION

Situated three miles from the M25, the park provides access to world-class multimodal infrastructure, combined with excellent connectivity to UK, European and global markets.

Logistics and distribution businesses can benefit from proximity to the major East Coast sea ports, including Felixstowe, Dover, London Gateway, Port of London, Tilbury, Harwich and The Channel Tunnel, six port-side rail freight terminals and fast access to the M1, A1(M), M11 and M2.

ROAD

ACCESS

RAIL

West Horndon Railway Station is on the c2c mainline and offers direct services to London Fenchurch Street within 30 minutes. Located just over a mile from London Brentwood Commercial Park, the station is accessible by bus and only a seven-minute bike ride from the site. Brentwood Station is five miles away and provides new services on Crossrail's Elizabeth Line.

BUS

Bus service 565 serves the site, with routes between Brentwood, East and West Horndon, and Bulphan. The nearest bus stop is located at Dunton Hills Farm on the A128 (Tilbury Road), which can be accessed by a new footpath linking to the park.
